WVSSAC Football Clinician

## What's Happening?

Blowouts, blowouts, and wait for it... blowouts in many areas. Scores of 93, 86, and 84 lit up the scoreboards last week. One game it was 86-0 at halftime. This may get worse before it has any chance of getting better. Encourage coaches to shorten quarters when in these type of situations. Both coaches and the R have to agree to this. Remember, quarters may be shortened at any time of the game, and running clock is only in the 4<sup>th</sup> quarter 35 point lead or more. Understand teams frustrations with both players and coaching staffs.

## Needs:

Remember, in sub varsity contests, we only play overtime in Varsity and Middle School. We do not play OT in Freshmen or JV contests, so review this before your contests.

As we have had several disqualifications over the first couple of weeks, in your pregame, review bench clearing protocols and what each official will do if you would encounter such a situation. Make disqualifying fouls big if you would have one of these.

Continue to report clock operator issues on the Special Reports as they get addressed every week.

## Week 3 POE

**Rule Applications**

**Player Equipment**

**Game Shortening Options**

### Play Of The Week:

2<sup>nd</sup> & 8 at A's 42 yard line. A14 runs for a TD, and A25 commits a blindside block at B's 30 yard line. During the play, A3 is called for unsportsmanlike conduct at A's 45 yard line for taunting his opponent by clapping in his face. What is the down and distance after enforcement?

### Ruling:

It will be 2<sup>nd</sup> & 10 from A's 40 yard line after enforcements. Both fouls are enforced for a total of 30 yards. 15 yards for the BSB enforced from B's 30 and 15 yards for the UNS Foul enforced from the succeeding spot.

## Week 3 Focus

Stay on top of equipment issues. Knee pads and pants over the knee, bands on the wrist being removed, illegal mouth pieces, etc. We must always be looking for these items.

Review weather protocols and work with game administration during any potential delays. Do your best to get the game in that night.

Stay focused during blowout games. I know it is difficult at times, but we must stay focused every play.

**Have Fun! Safe Travels!**

**Good Luck and Stay Safe!**
